Registration due February 20, 2017

Student Enrollment Information:

Parent Name _____ Phone: _____ Email: _____
 Student Name: _____ Grade: _____ Current School: _____
 Classroom Teacher: _____ Email: _____ Date: _____

Engineering 102 for grades 1-3: Expand their learning by building more complex creations that grab, push, steer, sweep, and use motion and tilt sensors to innovate their creations. They will then innovate their creations to do even more! (Engineering 101 is a prerequisite for Engineering 102.)

Engineering 202 for grades 4-6: Find out how engineers use pulleys, gears, levers, wheels, axles and more to solve complex design challenges and create solutions for everyday problems. (Engineering 201 is a prerequisite for Engineering 202.)

Please indicate preferred location and class: This class will be held one day per week for six weeks.

Holy Spirit: Mondays * Saint Mary: Tuesdays St. Michael : Wednesdays

Classes at Saint Mary and St. Michael's
