

# WHO WE ARE

Sioux Falls Catholic Schools have a longstanding reputation for traditional academic rigor. Our strength is in our ability to meet the needs of all learners. The elementary curriculum of SFCS provides a solid foundation with rigorous expectations that address faith development in addition to our traditional academic curriculum. Our academic excellence is rooted in our faith and our mission *"...to form a community of faith and learning by promoting a Catholic way of life through Gospel values and academic excellence."* This mission is also why we attract dedicated and experienced educators who set high expectations for their students and care about their success.

**"Our children are surrounded every day by loving, caring people - adults and children alike - who share a common set of values. They are able and encouraged to express these values in their thoughts and actions as well as in their academics."** - SFCS Parent
